Rock

The image shows a technical drawing of a rock face. A dashed line represents the rock's surface, sloping downwards from left to right. A solid line is drawn parallel to the dashed line, slightly to its right. The word "Rock" is written in a bold, sans-serif font, oriented vertically and rotated 90 degrees counter-clockwise, positioned between the two lines. There are four corner crop marks on the page: one at the top right, one at the bottom right, one at the bottom left, and one at the top left.
